PROFESSIONAL SUMMARY

Frontend Developer with **3+ years of experience** building enterprise and client-facing applications using **Angular, React.js, TypeScript, JavaScript, REST APIs, and SQL Server**. Experienced in applications serving **10,000+ users across India and Gulf markets**, with expertise in ERP development, production support, issue resolution, performance optimization, responsive UI, and UAE/Gulf client projects.

EXPERIENCE

Frontend Developer

Easy Design Systems, Coimbatore | Jun 2024 – Aug 21, 2026

Angular | TypeScript | REST APIs | SQL Server | Angular Material

- Developed and maintained enterprise ERP applications serving **10,000+ users across India and Gulf markets**.
- Contributed to **Sales, Finance, Purchase, Accounts, Inventory, and Reporting** modules.
- Built reusable components, reactive forms, dynamic tables, and responsive interfaces.
- Integrated REST APIs and optimized API calls/rendering to improve **performance and user experience**.
- Resolved production, UI, API, and functional issues to improve application stability.
- Collaborated with backend, QA, business, and **UAE/Gulf client teams** in Agile development.

Web Developer

Machenn Innovation, Coimbatore | Nov 2023 – Feb 2024

React.js | JavaScript | Firebase | ChatGPT API | Stockfish

- Developed responsive React.js interfaces and reusable components.
- Integrated **ChatGPT API and Stockfish Engine** for AI-assisted chess functionality.
- Implemented Firebase Authentication and improved cross-device user experience.

PROJECTS

TITAN Enterprise ERP Platform

Angular | TypeScript | REST APIs | SQL Server

Enterprise ERP platform supporting **Sales, Finance, Purchase, Accounts, Inventory, and Reporting** operations.

Restaurant Platform Gulf Clients

React.js | React Native | Firebase | REST APIs

Responsive restaurant solution for **Gulf clients**, supporting web/mobile interfaces, menu, ordering, and booking workflows.

Sigaram64 Chess Learning Platform

React.js | Firebase | ChatGPT API | Stockfish

AI-assisted chess learning platform featuring intelligent assistance, analysis, and interactive learning.

TECHNICAL SKILLS

Frontend: Angular, React.js, React Native, TypeScript, JavaScript, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Angular Material

Backend: Node.js, Django, Django REST Framework, REST APIs

Database: MySQL, SQL Server

Tools: Git, GitHub, Firebase, NPM, Vite, Webpack, VS Code

Core: ERP Development, Responsive UI, API Integration, Performance Optimization, Production Support, Debugging, Agile/Scrum

EDUCATION

B.E. – Electronics & Communication Engineering

University College of Engineering, Dindigul - Anna University

2018–2022 | CGPA: 7.82/10

CERTIFICATIONS

Python Full Stack Web Development - Brainery Spot Technology

Python (Basic) - HackerRank
